Declaration of no objection according FDA regulation

Ball Valve Series 20, 20D, 20L, 20T, 21L and 21T

We (Zürcher Technik AG) confirm that the elements used to fabricate Dyneon TF and TFM (Seats, body seals and packing in material PTFE pure and PTFE glass) are listed in Directive 90/128/EWG, 92/39/EWG, 93/9/EWG and accordingly in the German Bedarfsgegenständeverordnung dated 10.04.92.

The monomers of the above mentioned product comply in respect of species, quantity and purity with the German Recommendations L II "Füllstoffe für Bedarfsgegenstände aus Kunststoffen" as issued by Bundesgesundheitsamtes (BGA) in Berlin.

In conditions of appropriate manufacturing there is no objection of use above mentioned material to fabricate "Lebensmittelbedarfsgegenständen" in the mean of "Lebensmittel- and Bedarfsgegenständegesetz § 5 Abs. 1, Nr. 1 (Lebensmittelbedarfsgegenstände) and No. 5 (Spielwaren)".

The above mentioned products belong the standards FDA regulations 21 CFR § 177.1550

It is the customers responsibility to determine and decide, which of the above mentioned Recommendations apply and are suitable for its intended applications.

Zürcher Technik AG
